Hello Alfrieda,

Thank you for your note and question below. I believe that Jeff and his team have considered notification, but will ask the team to include you and Derald in their thought process. It is great if the Tribe can assist in any effort to outreach to the neighbors, if needed.

Jeff will be your main point of contact for operational questions and issues and I have also copied the rest of the team that are helping him with these types of questions/considerations. Jeff's cellphone number is 206-225-5582.

Jeff should be getting back to you shortly on his plan and needs for assistance.

Please let me know if there is anything else that I can do to assist the Tribe.

Sincerely,

Calvin

Calvin J. Terada, Manager

Importance: High

Greeting Calvin

I am Alfrieda Peters with Yakama Nation Solid Waste Program. Currently Derald

Ortloff is overseeing
the program in the interim period.

I am following up on his request. What is EPA's position on notification of the neighbors of Gaytan during EPA testing on the potential ACM debris? As we have a listing of 96 individuals that live within a mile of Gaytan's resident, will EPA be notifying the neighbors? Mr. Ortloff want to know what is Cliff's position on this?

Plus, do you want Yakama Nation's to assist on the notification of EPA's Action on Ashue Road Asbestos Site that will be taking place on Monday August 12?
